R-Zero David Mathias 2010-03 Will
Martin, a man in his mid-thirties,
suffers from hyperthymesia (perfect

memory) and photographic memory, the only known person in the world to have both conditions. Once a successful surgeon, he has spent the last two years on the streets, unable to erase the memory of discovering his wife brutally murdered and his son missing. It has caused Will to give up everything. Will is the target of bounty hunters who find him and coerce Will into volunteering for a study. Will is to participate in an experiment with the drug R-Zero. The idea is sold to Will under the pretense that if successful, it will be used to help victims of horrible crimes move on with their lives and forget the dreadful memory that plagues them. Will can relate and agrees to the experiment, but there are risks. Thoughts are complex and connected, resulting in 'memory

spots' that linger. Will discovers that there are rogue government agents behind the experiment. A group of seven detainees from Guantanamo who are scheduled for trial, will soon have the memory of their torture erased. Will sets out to destroy R-Zero and the journey takes him to places unimaginable. Will learns who has been controlling the world for the last sixty years. New questions evolve concerning his future and the mysteries behind the tragedies that have surrounded his past.

One Two Three Laurie Frankel
2021-06-08 From Laurie Frankel, the New York Times bestselling author of *This Is How It Always Is*, a Reese's

Book Club x Hello Sunshine Book Pick, comes *One Two Three*, a timely, topical novel about love and family that will make you laugh and cry...and laugh again. In a town where nothing ever changes, suddenly everything does... Everyone knows everyone in the tiny town of Bourne, but the Mitchell triplets are especially beloved. Mirabel is the smartest person anyone knows, and no one doubts it just because she can't speak. Monday is the town's purveyor of books now that the library's closed--tell her the book you think you want, and she'll pull the one you actually do from the microwave or her sock drawer. Mab's job is hardest of all: get good grades, get into college, get out of Bourne. For a few weeks seventeen years ago, Bourne was national news when its water turned

green. The girls have come of age watching their mother's endless fight for justice. But just when it seems life might go on the same forever, the first moving truck anyone's seen in years pulls up and unloads new residents and old secrets. Soon, the Mitchell sisters are taking on a system stacked against them and uncovering mysteries buried longer than they've been alive. Because it's hard to let go of the past when the past won't let go of you. Three unforgettable narrators join together here to tell a spellbinding story with wit, wonder, and deep affection. As she did in *This Is How It Always Is*, Laurie Frankel has written a laugh-out-loud-on-one-page-grab-a-tissue-the-next novel, as only she can, about how expanding our notions of normal makes the world a better

place for everyone and how when days are darkest, it's our daughters who will save us all.
