**A Treatise on the Law of Awards (Classic Reprint)** Stewart Kyd 2015-07-09 Excerpt from A Treatise on the Law of Awards In the progress of society, a considerable time elapses, after the ideas of property, and of the exclusive rights of the individual, have arisen in the minds of men, before a compulsory system of distributive justice can be completely established. During that unsettled period, every dispute, for the decision of which the passions of the disputants do not prompt them to appeal to the chance of arms, is terminated either by a mutual agreement, the conditions of which are settled by themselves, or by the intervention of their friends; or by a reference to some indifferent person, of whose superior wisdom and equity they have formed a favourable opinion. The security which each party has for performance by the other, in the first mode of settlement, arises partly from the nature of the agreement, which consists perhaps of mutual concessions to be made at the same time, partly from the fear of mutual violence in case of refusal, and partly from that sense of honour and respect for the opinion of others, which in every period of society has a considerable influence over the mind. **A Treatise on the Law of the Contract of Pledge as Governed by Both the Common Law and the Civil Law** Henry Denis 2015-06-25 Excerpt from A Treatise on the Law of the Contract of Pledge as Governed by Both the Common Law and the Civil Law I would not have thought of writing at this late day a book on the Contract of Pledge of the Common Law exclusively. Several treatises have already been published on that subject. Text-books, besides, are too often mere repetitions of one another. My object in this work is to arrive at a better knowledge and understanding of the law of Pledge of the Common Law by comparing it with the law of Pledge of the Civil Law, from which it descends. The comparative study of scientific subjects is always profitable, whether it is that of comparative anatomy or that of comparative jurisprudence. Both Judge Story and Mr. Schouler in their Treatises on Pledges recognized the relative obscurity and uncertainty of the Common Law on that subject, and suggested that assistance could be derived for its better understanding from the knowledge of the Civil Law. This is my reason, and, if necessary, my excuse, for presenting this book to the consideration of the Bench and Bar of this country. *A Treatise on the Law of Injunctions, Vol. 1 of 2 (Classic Reprint)* James Lambert High 2017-12-14 Excerpt from A Treatise on the Law of Injunctions, Vol. 1 of 2 While there has been, of recent years, a wide development Of the preventive jurisdiction of equity in all its branches, this development has been especially noticeable in connection with injunctions against the infringement of trade marks, including what has come to be known as unfair competition, injunctions pertaining to streets and highways, and to negative covenants and contracts in restraint of trade, and, finally, the use of the writ which has

resulted from the labor troubles and disturb anecs of the last decade. The growth of the law in the three branches enumerated would alone be sufficient to justify a new edition Of this work. **A Treatise on the Law of Marine Insurance and General Average, Vol. 1 of 2 (Classic Reprint)** Theophilus Parsons 2017-11-26 Excerpt from A Treatise on the Law of Marine Insurance and General Average, Vol. 1 of 2 O? My treatise on Maritime Law, the first volume contained the Law of Shipping. The second volume con tained the Law of Marine Insurance, and the Law of Admiralty. In preparing a new edition of this work, I found that the recent cases on the subject of Marine Insurance, and especially those on General Average in connection with Insurance, in England and in this co un try, from their number, their interest, and their effect upon those important branches of Commercial Law, made it impossible to confine the work within its former limits. I determined, therefore, after much consultation with persons in different parts of our country whose Opinions on such a question would be most valuable, to prepare a new work on the Law of Marine Insurance, founding it upon my former work, but so increasing its size as to enable me to make it as complete as I could. The result is the book now offered the public. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. **A Treatise on the Law of Choses in Action** John James Kehoe 2015-07-09 Excerpt from A Treatise on the Law of Choses in Action: Together With an Appendix of Forms and Statutes In the initial tentative steps which were taken towards a fusion of Law and Equity, one of the earliest subjects dealt with was that of choses in action; and amid all the efforts which have been made, none has been more successful. The doctrines of Equity and Common Law have been assimilated in the highest degree, where, before, the divergence was very wide, and we now have choses in action as freely assignable at law, as they are in equity. The result of this assimilation is, that a greater activity is displayed in the assignment of debts, etc., since a debt is generally speaking, as easily recoverable in the hands of an assignee as if it remained in the hands of the original owner. As an evidence of the increase of transactions in assignments of choses in action, it may be mentioned that during the last four years more cases have appeared in our reports under this head, than appeared before that time. This important subject, however, has remained without a commentator, as no work has anywhere appeared treating of it. To supply the want of such a work, r have undertaken this Manual. In so doing, I look with confidence for the generous criticism of the profession. Besides being a subject, on which no other work than this has appeared, it is one of some difficulty. "The law upon this subject is brought to such an exquisite degree of refinement, that it is by no means easy to understand it," is what was said by Lord Justice Brett in *Field v. Mesmer* (L. R. 4 C. P., 664). About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. **A Treatise on the Law of Contracts, Vol. 1 (Classic Reprint)** C. G. Addison 2017-10-24 Excerpt from A Treatise on the Law of Contracts, Vol. 1 Here I would have gladly stopped but the necessities of the practicing lawyer and the precedent of previous editions seemed to call for a summary of the law of stamps; and this I have accordingly added in a separate book, which the student, who will find in it little to reward him, can avoid. Although I have endeavored, in the manner above stated, to throw the work, so far as its principal divisions are concerned, into a somewhat more systematic and logical form, i cannot flatter myself that I have carried out my design into all the details of the work. Such a task would have required far more leisure than I have been able to find in the short interval which has elapsed since the last edition, which is now exhausted, was published. Some little I have done, and morei hope to do, if I am permitted to revise another edition; but I must trust to the indulgence of the profession to excuse many defects of which I am painfully conscious. The reader will notice that the type has been enlarged, and that the Index is no longer printed in double columns, an alteration which will be found considerably to increase the facility of using it, as it admits of easier distinction of the subjects falling under each head by variations of the marginal spaces. The head-notes of the different chapters, which, being printed in double columns and without refer ence to the pages, were quite useless, have been omitted. With Illustrations From the Foreign Law Sir edward coke, in the preface to the 8th part of his Reports, says As naturalists say that there is no kind Of fowl of the wood, or Of the plain, that doth not bring somewhat to the building Of the Eagle's nest, - some, cinnamon, or things Of price, some, juniper, or. Things of lesser value so ought every man, according to his power, place, and capacity, to bring something to the adorning of our great Eagle's nest, our own dear country and these presents I have brought to that great Eagle's nest, the Law. Not illustrated. 1894 edition. Excerpt: ...reserving, or as intended to reserve, to the association the power to change or avoid its contracts, to lessen its responsibilities, or to divest its members of rights. This is not the proper office of a by-law; and from the general expressions to Which we are referring, it cannot be fairly presumed or intended that it was contemplated to affect the members by other than such by-laws, as it was within the competency of the association to enact. But in addition to these, the averment of the plea is, that the certificate was accepted by the assured ' subject to the laws of the order now in force, or which may be hereafter enacted by the supreme commandery.' These are words of large signification, and clearly express that the assured consented that the contract should be subject to future, as well as existing by-laws. Parties may contract in reference to laws of future enactment--may agree to be bound and affected by them, as they would be bound and affected if such laws were existing. They may consent that such laws may enter into and form parts of their contracts, modifying or varying them. It is their voluntary agreement which relieves the application of such laws to their contracts and transactions from all imputations of injustice. The members of associations, created for purposes and objects like those which seem to be the purposes and objects of this organization, may very properly be required to assent that the contract conferring upon them rights shall be subject to, and depend upon the future, as well as the existing laws adopted bythe governing power. The fundamental principle of such organizations is the mutuality of duty and equality of rights of the membership, without regard to time of admission. This cannot well...
