2.4 Children and families may experience a range of needs at different times in their lives (see Figure 1). All children require access to high quality universal services. Some children are at risk of poor outcomes. These are children with additional needsand they will require targeted support from education, health, social services or other ...

Assessing Young Children - Pearson Assessments

no two children have the same family, cultural, and experiential backgrounds. Clearly, these variables mean that a “one-size-fits-all” assessment will not meet the needs of most young children (Shepard, et al.). Another assessment challenge for young children is that it takes time to administer assessments properly.
