Commission on Long-term Care Report to the Congress, September 30, 2013 Commission on Long-Term Care
2013-10-23 The Commission on Long-Term Care was established under Section 643 of American Taxpayer Relief Act of 2012 (P.L. 112-240), signed into law January 2, 2013. The Commission was established with 15 members. Three members each were appointed by the President of the United States, the majority leader of the Senate, the minority leader of the Senate, the Speaker of the House of Representatives, and the minority leader of the House of Representatives. The Commission elected Dr. Bruce Chernof as its Chair and Dr. Mark Warshawsky as its Vice-Chair. The statute directed the Commission to: ..".develop a plan for the establishment, implementation, and financing of a comprehensive, coordinated, and high-quality system that ensures the availability of long-term services and supports for individuals in need of such services and supports, including elderly individuals, individuals with substantial cognitive or functional limitations, other individuals who require assistance to perform activities of daily living, and individuals desiring to plan for future long-term care needs." The statute further directed the Commission within 6 months of the appointment of Commissioners (by September 12, 2013) to: ..".vote on a comprehensive and detailed report based on the long-term care plan... [described above]... that contains any recommendations or proposals for legislative or administrative action as the Commission deems appropriate, including proposed legislative language to carry out the recommendations or proposals."

RAF Fighter Command Pilot Mark Barber 2012-09-20 The recent 70th anniversary of the Battle of Britain, combined with the threat of significant cuts to the current RAF, have highlighted the importance of Fighter Command in the early days of World War II once more. The role of the "few", as described by Churchill, during the Battle of Britain has been the subject of much mythologizing both at the time and in the years since. This title will put Fighter Command in context; describing the lack of funding and attention which it received during the interwar period, until it was almost too late. The myth of the fighter pilot will be humanized, with first-hand accounts quoted which put nervous but brave human beings from all walks of life in the cockpit. Although the Battle of Britain may not have in itself been the decisive encounter that it has historically been portrayed as, the moral victory won by the RAF, the victory that proved that Germany could be defeated, was just as important as a military-strategic victory.

The Logic of Economic Reform in China Xiaojing Zhang
2015-11-19 This book provides a historical overview of Chinese economic reform over the past 30 years. From the genesis of the reform to the gradual improvement of the market system, and then to the re-start of the critical stage of the reform, this book includes not only research on the reform process, but also detailed descriptions of the key areas of reform since the Third Plenary Session of the 18th CPC Central Committee. On this basis, the author develops six logics for Chinese economic reform. Firstly, reform is cyclical, moving between rapid advances and deadlock; this calls upon us to re-examine the common view of reform. Secondly, reform is systematic; it cannot succeed without supporting reforms in other fields. Thirdly, the relationship between reform, development and stability should be properly handled. This "trinity" is quite different from the perspective of western mainstream theory, which puts too much emphasis on efficiency. Fourthly, the success of Chinese reform was not achieved by chance. The reform practice is based on the theoretical logic, and also goes beyond the debate between progressive and radical modes. Fifthly, the Top-level Design should be combined with "crossing the river by moving from stone to stone," i.e., the theoretical

basis of reform should be combined with reform practice. Sixthly and lastly, the ongoing reform in China must be understood in the contexts of global competition and reform competition.
