2013-11-01 Financial accounting is undergoing a period of unprecedented change. The FASB and IASB have been working together to issue converged accounting standards that will dramatically change key reporting areas, and more generally have sought to converge accounting standards over time. In late 2011, the SEC will announce its decision on whether large public companies in the U.S. will be able to choose whether to report under U.S. GAAP or IFRS or if all companies are anticipated to be reporting under IFRS in the near future. So, while there currently is considerable overlap between U.S. GAAP and IFRS, and that overlap is increasing as convergence continues, important differences remain. To help instructors deal with the challenging environment, the Spiceland team is committed to providing current, comprehensive and clear coverage of intermediate accounting. The 7th

edition reflects this commitment with the following innovations.

Intermediate Accounting James F. Sepe 2001-05 *Intermediate Accounting, 2e*, by Spiceland/Sepe/Tomassini will gain support in traditional and technology-driven accounting departments, especially those looking for a more concise, decision making text that reinforces challenging concepts via CD-ROM. The revision of this text is based around a "Learning System." The Learning System is comprised of the text, Coach CD-ROM, and Web site. The Coach CD-ROM is a multimedia product integrating audio and video clips, animated illustrations, and alternative reading material that helps students

comprehend some of the more difficult topics associated with intermediate accounting. Designed specifically for the Spiceland text, instructors and students will find these learning tools placed strategically throughout the text. This is the most comprehensive Learning System in Intermediate Accounting. At only 1120 pages (300 pages less than the average intermediate accounting text), Spiceland/S/T has not sacrificed content for pages. Instead, the authors have created a very flexible text with a student friendly writing style that focuses on explaining not just how to apply a procedure, but why it's applied. *Intermediate Accounting Vol 1 (Ch 1-12) with British Airways Annual Report* J.
