Italian Gothic Horror Films, 1970-1979 Roberto Curti 2017-09-01

Italian Gothic horror films of the 1970s were influenced by the violent giallo movies and adults-only comics of the era, resulting in a graphic approach to the genre. Stories often featured over-the-top violence and nudity and pushed the limits of what could be shown on the screen. The decade marked the return of specialist directors like Mario Bava, Riccardo Freda and Antonio Margheriti, and the emergence of new talents such as Pupi Avati (*The House with the Laughing Windows*) and Francesco Barilli (*The Perfume of the Lady in Black*). The author examines the Italian Gothic horror of the period, providing previously unpublished details and production data taken from official papers, original scripts and interviews with filmmakers, scriptwriters and actors. Entries include complete cast and crew lists, plot summaries, production history and analysis. An appendix covers Italian made-for-TV films and mini-series.

Universities as Living Labs for Sustainable Development Walter Leal Filho 2019-04-30 This book fills an important gap in the literature, and presents contributions from scientists and researchers working in the field of sustainable development who have engaged in dynamic approaches to implementing sustainability in higher education. It is widely known that universities are key players in terms of the implementation and further development of sustainability, with some having the potential of acting as “living labs” in this rapidly growing field. Yet there are virtually no publications that explore the living labs concept as it relates to sustainability, and in an integrated manner. The aims of this book, which is an outcome of the “4th World Symposium on Sustainable Development at Universities” (WSSD-U-2018), held in Malaysia in 2018, are as follows: i. to document the experiences of universities from all around the world in curriculum innovation, research, activities and practical projects as they relate to sustainable development at the university level; ii. to disseminate information, ideas and experiences acquired in the execution of projects, including successful initiatives and good practice; iii. to introduce and discuss methodological approaches

and projects that seek to integrate the topic of sustainable development in the curricula of universities; and iv. to promote the scalability of existing and future models from universities as living labs for sustainable development. The papers are innovative, cross-cutting and many reflect practice-based experiences, some of which may be replicable elsewhere. Also, this book, prepared by the Inter-University Sustainable Development Research Programme (IUSDRP) and the World Sustainable Development Research and Transfer Centre (WSD-RTC), reinforces the role played by universities as living labs for sustainable development.

La mano invisible (Serie Great Ideas 15) Adam Smith 2012-10-10 Ideas que han cambiado el mundo A lo largo de la historia, algunos libros han cambiado el mundo. Han transformado la manera en que nos vemos a nosotros mismos y a los demás. Han inspirado el debate, la discordia, la guerra y la revolución. Han iluminado, indignado, provocado y consolado. Han enriquecido vidas, y también las han destruido. Taurus publica las obras de los grandes pensadores, pioneros, radicales y visionarios cuyas ideas sacudieron la civilización y nos impulsaron a ser quienes somos. El decisivo tratado de Adam Smith sobre el mercado libre allanó el camino al capitalismo moderno argumentando que la competencia es el motor de una sociedad productiva y que el interés propio en última instancia logrará enriquecer a toda la comunidad, como si de una «mano invisible» se tratara. Comentarios sobre la colección Great Ideas: «De veras que la edición es primorosa y pocas veces contenido y continente pueden encontrarse mejor ensamblados y unidos. ¡Qué portadas! Para enmarcar. [...] Ante las "Great Ideas", solo cabe quitarse el sombrero. ¡Chapeau!» ABC «Taurus propone un doble envite con este lanzamiento. Por un lado aumenta su compromiso con el ensayo; por otro, recupera el gusto por la estética. A los volúmenes se les ha proporcionado una portada delicada y cuidada (copian el original británico) que invita a la lectura.» La Razón «Un fenómeno editorial.» The Guardian «Aparte de los contenidos, en general muy bien elegidos, son tan bonitos que si los ven seguro que cae alguno.» El País «Ideas revolucionarias, crónicas de exploraciones, pensamientos radicales... vuelven a la vida en estas cuidadísimas ediciones, muy atractivas para nuevos lectores.» Mujer Hoy «Grandes

ideas bien envueltas. De Cicerón a Darwin, esta colección entra por los ojos.» Rolling Stone «Original y bella iniciativa la emprendida por Taurus con su colección Great Ideas.» Cambio 16 «Hay libros inmortales, libros únicos que contienen pensamientos y reflexiones capaces de cambiar el mundo, tesoros en miniatura reagrupados en la colección Great ideas.» Diario de León

Raphael to Renoir Stijn Alsteens 2009-01-01 "The works from the Bonna Collection are illustrated in color, and whenever possible, at their actual sizes. They are arranged chronologically by the artist's date of birth and are grouped according to the main artistic schools. This volume is introduced by an interview with Jean Bonna by George Goldner. Each drawing is then described in an entry, many of which have comparative illustrations that shed further light on individual works."--BOOK JACKET. *L'École normale de l'An III. Vol. 2, Leçons d'histoire, de géographie, d'économie politique* Collectif 2012-12-20 Il survient parfois un moment de l'histoire où les scientifiques, tous domaines confondus, s'imposent dans un même mouvement de faire le point des connaissances acquises et de tracer les routes à suivre. C'est à un tel moment que nous convient les leçons de l'École normale de l'an III, professées au premier semestre de 1795, retranscrites par le soin des sténographes et aussitôt publiées. Dernière tentative - désespérée - d'offrir à un seul cerveau une connaissance encyclopédique ordonnancée par la raison analytique, ces leçons seront interrompues par les journées de Prairial qui mettront un point (provisoirement) final à l'expérience si riche de l'École normale. Leçons d'histoire, de géographie d'économie politique Si, aujourd'hui, l'association de ces trois cours n'étonne pas, cet ensemble de disciplines existe déjà à la fin du XVIIIe siècle sous le nom de Sciences morales et politiques. Qu'il s'agisse des magnifiques leçons de philosophie de l'histoire de Volney, du cours de géographie de Buache et Mentelle - avec ses composantes astronomique, physique et climatique mais aussi ses indications de géographie politique et militaire - ou des leçons de Vandermonde considérées comme le premier enseignement véritable de l'économie politique en France, ces textes illustrent la multidisciplinarité latente qui est un des principes fondateurs de la nouvelle institution.

Liberalismo social y reforma del Estado René Villarreal 1993 El presente texto explora y reconstruye la ruta de los liberalismos en la crisis actual, que aparece parcialmente como producto de los excesos y fallas del Estado intervencionista, pero también como producto del nuevo capitalismo que ha derribado los supuestos básicos de este paradigma. Frente a este nuevo capitalismo, el neoliberalismo -o el retorno al liberalismo de laissez-faire y el Estado mínimo- ha evidenciado que no es la puerta de salida a la crisis.

Creative Cognition and the Cultural Panorama of Twentieth-Century Spain

C. Gala 2015-05-20 This multidisciplinary study focuses on the creative

state as the nucleus of the work of numerous poets, artists, and philosophers from twentieth-century Spain. Beginning with cognitive science, Gala explores the mental processes and structures that underline creative thinking, for poets like José María Hinojosa, Clara Janés, and Jorge Guillén.

The Tonadilla in Performance Elisabeth Le Guin 2013-11-16 The tonadilla, a type of satiric musical skit popular on the public stages of Madrid during the late Enlightenment, has played a significant role in the history of music in Spain. This book, the first major study of the tonadilla in English, examines the musical, theatrical, and social worlds that the tonadilla brought together and traces the lasting influence this genre has had on the historiography of Spanish music. The tonadillas' careful constructions of musical populism provide a window onto the tensions among Enlightenment modernity, folkloric nationalism, and the politics of representation; their diverse, engaging, and cosmopolitan music is an invitation to reexamine tired old ideas of musical "Spanishness." Perhaps most radically of all, their satirical stance urges us to embrace the labile, paratextual nature of comic performance as central to the construction of history.

Telling Tales Anne L. Walsh 2015-04-01 This volume delves deeply into the role played by stories and storytelling in shaping, controlling and mapping present-day Spain, and examines fiction in various manifestations and genres, especially written and filmic. It contrasts such stories and their context with the past, investigating the differences and similarities between spatially and geographically varying narrations in order to tease out the link between the time of telling and the act of living. Throughout the book, scholars look separately at this phenomenon, and their findings reveal a close bond between events occurring in the real world and the relating of fictional stories. Particularly in Spain, the geographic space of interest here, storytelling is used both as catharsis and didactically. Authors and filmmakers find inspiration in everyday

occurrences, and, while there is nothing unusual in that, the interest here lies in the consequent transformation of these occurrences into fascinating stories that attempt to make sense of chaotic events, connect those events temporally, and explore the meaning of the consequent coherence. Stories are at the very essence of humanity, be they fictional or based on everyday reality. This collection focuses specifically on Spain where easily identifiable features of history (such as the Spanish Civil War, the Franco Dictatorship, transition, democracy, and the global economic crisis) have had a major impact on everyday life. The narratives emerging show clear evidence of that impact, with an emphasis on such themes as the significance of memory, the impossibility and instability of such memory, the chaotic nature of life, and the place of the nation/state in the psyche of the individual, with emerging themes investigating the role of solidarity and empathy in the empowerment of the individual. This volume is informed by the shift that occurred in the twentieth century towards a world of unstable parameters, whereby whatever knowledge that is received must be questioned as to the extent of its authenticity since that knowledge is always affected by memory, experience, and time, all subjective phenomena in themselves.

Refundar la Iglesia disidencia y liderazgo Gerald A. Arbuckle 1998 La tarea de poner el Evangelio en interacción dinámica con los problemas contemporáneos y los riesgos que ello conlleva son tan enormes que la expresión "renovación de la Iglesia" ya no resulta adecuada para transmitir la inmensidad del desafío que tenemos ante nosotros. De ahí lo de refundar la Iglesia, es decir, encontrar e implementar nuevas formas de llevar al mundo la Buena Nueva de la fe/justicia. No obstante, quienes empujan intransigentemente a la Iglesia a retroceder de los valores del Vaticano II hacia "la privacidad de los templos y, por tanto, a incumplir su misión", temen el desorden o el malestar del caos, porque no saben hacer frente a la impredecibilidad y la confusión que acompañan inevitablemente a los nuevos y valientes impulsos pastorales que tanta ansiedad suscitan. Una reflexión exhaustiva sobre la vida religiosa proporcionará a los dirigentes eclesiales y a los evangelizadores una comprensión más matizada de los problemas a los que se enfrentan. Las congregaciones religiosas evolucionaron históricamente como movimientos disidentes que desafiaban a la sociedad y a la Iglesia a estar a la altura de los valores evangélicos. Se requieren, pues, religiosos/as disidentes o testigos proféticos de los valores evangélicos que con su estilo de vida y sus audaces iniciativas apostólicas, disientan de la cultura restauracionista que se está desarrollando en la Iglesia. Lo cual conllevará inevitables tensiones con las estructuras jerárquicas eclesiales, fundamentalmente preocupadas por el orden y la unidad. De hecho, como muestra la historia de la vida religiosa, cuanto más correctamente estén haciendo su trabajo los religiosos/as, tanto mayores serán las tensiones y los conflictos con la Iglesia jerárquica. Pero el miedo al sufrimiento no debe disuadirles de su tarea fundamental de ser "mártires de la profecía" en la sociedad y en la Iglesia. GERALD A. ARBUCKLE, SM, ampliamente conocido por su manera de aplicar los métodos y criterios de la antropología cultural a la Iglesia, a la vida religiosa y a la evangelización, es autor de *Out of Chaos: the Refounding of Religious Congregations* (1988); *Earthing the Gospel: An Inculturation Handbook for Pastoral Workers* (1990); *Grievings for Change: A Spirituality for Refounding*

Consuelo Jimenez Underwood Laura E. Pérez 2022-07-08 Consuelo Jimenez Underwood's artwork is marked by her compassionate and urgent engagement with a range of pressing contemporary issues, from immigration and environmental precarity to the resilience of Indigenous ancestral values and the necessity of decolonial aesthetics in art making. Drawing on the fiber arts movement of the 1960s and 1970s, Chicana feminist art, and Indigenous fiber- and loom-based traditions, Jimenez Underwood's art encompasses needlework, weaving, painted and silkscreened pieces, installations, sculptures, and performance. This volume's contributors write about her place in feminist textile art history, situate her work among that of other Indigenous-identified feminist artists, and explore her signature works, series, techniques, images, and materials. Redefining the practice of weaving, Jimenez Underwood works with repurposed barbed wire, yellow caution tape, safety pins, and plastic bags and crosses Indigenous, Chicana, European, and Euro-American art practices, pushing the arts of the Americas beyond Eurocentric aesthetics toward culturally hybrid and Indigenous understandings of art making. Jimenez Underwood's redefinition of weaving and painting alongside the socially and environmentally engaged dimensions of her work position her as one of the most vital artists of our time. De heren van de tijd Eva García Sáenz de Urturi 2020-05-19 Onweerstaanbare mix van spanning, geschiedenis en cultuur. De heren van de tijd maakt de trilogie van De witte stad compleet! Vitoria, 2019. De roman De heren van de tijd, die zich afspeelt in de Middeleeuwen, is een groot succes. Hij verschijnt onder het mysterieuze pseudoniem Diego Veilaz. Vitoria, 1192. De legendarische graaf Diago Vela komt thuis na een

missie van twee jaar, hem opgedragen door de koning. Hij treft zijn broer aan, getrouwd met de vrouw die ooit zijn bruid was. In het heden krijgt Unai López de Ayala te maken met een reeks gruwelijke moorden, identiek aan beschrijvingen in De heren van de tijd. Zijn onderzoek leidt naar de toren van Nograro, een fort dat al eeuwen bewoond wordt door dezelfde familie. Gaandeweg vindt Unai in De heren van de tijd allerlei overeenkomsten met zijn eigen verleden. En deze ontdekking zal voor hem en zijn familie alles veranderen. 'Klinkt als een thriller. Is ook een thriller. Maar meer dan dat is het een inwijding in de "witte stad" en haar omgeving vol legendes en cultureel erfgoed.' - Het Parool Archaeologists and the Dead Howard Williams 2016-06-24 This volume addresses the relationship between archaeologists and the dead, through the many dimensions of their relationships: in the field (through practical and legal issues); in the lab (through their analysis and interpretation); and in their written, visual and exhibitionary practice - disseminated to a variety of academic and public audiences. Written from a variety of perspectives, its authors address the experience, effect, ethical considerations, and cultural politics of working with mortuary archaeology. Whilst some papers reflect institutional or organisational approaches, others are more personal in their view: creating exciting and frank insights into contemporary issues which have hitherto often remained 'unspoken' amongst the discipline. Reframing funerary archaeologists as 'death-workers' of a kind, the contributors reflect on their own experience to provide both guidance and inspiration to future practitioners, arguing strongly that we have a central role to play in engaging the public with themes of mortality and commemoration, through the lens of the past. Spurred by the recent debates in the UK, papers from Scandinavia, Austria, Italy, the US, and the mid-Atlantic, frame these issues within a much wider international context which highlights the importance of cultural and historical context in which this work takes place.

Borges's Poe Emron Esplin 2016 Esplin argues that Borges, through a sustained and complex literary relationship with Poe's works, served as the primary catalyst that changed Poe's image throughout Spanish

America from a poet-prophet to a timeless fiction writer.
