Fraud in Financial Statements Julie E. Margret 2014-11-27 As the monetary cost of fraud escalates globally, and the ensuing confidence in financial markets deteriorates, the international demand for quality in financial statements intensifies. But what constitutes quality in financial statements? This book examines financial statement fraud, a topical and increasingly challenging area for financial accounting, business, and the law. Evidence shows that accounting anomalies in an organization's financial statements diminish the quality and serviceability of financial information. However, an anomaly does not necessarily signal fraud. Financial statement fraud is intended to mislead shareholders and other stakeholders. In this book, elements that underpin diversity of accounting anomalies likely found in fraudulent financial accounting statements are revealed. Multiple research methods are used in the analysis of selected international fraud cases, each illustrating examples of financial statement fraud, including: revenue recognition, overstatement and/or misappropriation of assets, understatement of expenses and liabilities, disclosure fraud, bribery and corruption. Additionally, the phoenix phenomenon with regard to fraud in financial accounting is investigated. Drawing on documented observations of commercial and legal cases globally this study highlights the necessity for continued development of financial audit practices and other audit services.

Corporate Finance Denzil Watson 2007 The fourth edition of *Corporate Finance: Principles & Practice* - now in full colour throughout - is a concise introduction to the core concepts and key topic areas of corporate finance. It offers integrated coverage of the three key decision areas in finance - investment, financing and dividends - using a clear and logical framework for study and incorporates a wide range of topical real-world examples, allowing students to relate theory to practice. *Corporate Finance: Principles & Practice* is suitable for specialist and non-specialist corporate and business finance courses at undergraduate, DMS and MBA/management at Masters level.

Accounting and Auditing Research Thomas R. Weirich 2020-09-29 *Accounting and Auditing Research*, 10th Edition prepares students and early-stage practitioners to use well-established research solutions in a broad range of practical applications, from financial accounting and tax planning, to investigating fraud and auditing various business problems. Emphasizing real-world skills development, this fully-updated textbook covers the current tools, techniques, and best practices in applied professional research and analysis. The authors provide comprehensive yet accessible coverage of the entire research process, explaining how to utilize major research databases and audit software packages in a clear and systematic manner. The tenth edition features carefully revised content designed to enhance effectiveness, increase readability, and strengthen learning and retention. The book's classroom-proven pedagogy features expert tips for performing common research tasks, sidebar boxes that summarize and expand upon key concepts, and a variety of end-of-chapter exercises that reinforce the material and develop readers' skills.

Cognitive Biases in the Capital Investment Context Sebastian Serfas 2010-12-06 Sebastian Serfas shows how cognitive biases systematically affect and distort capital investment-related decision making and business judgements. He provides a large number of examples that every business practitioner might encounter every day, demonstrates the detrimental effects through various empirical experiments, and outlines potential counterstrategies to mitigate these negative effects.

Cumulative Book Index 1985

Designing Cost Management Systems to Support Business Decision-Making Pieter Buys 2021-07-19 This book illustrates the importance effective cost management systems in providing a supportive environment in which reliable and relevant management information can be generated. Such a cost management system is only attainable if the importance of key business, operational and stakeholder requirements are recognised within the organisational context. In illustrating this importance, this book provides several case studies as examples thereof. The first two case studies focus on the engineering sector and illustrates the development of a cost management system in a water recycling context; and the design of a budgetary system in a mining engineering context. The remaining case studies focus on the services sector, including cost management systems for a digital technology services provider and a medical insurance services provider; an alternative activity-based costing approach for a public sector services provider; and finally a re-designed value stream for an automotive services provider. Academic researchers and industry managers in the fields of management accounting and financial management, as well as engineering and operations management, will find value in the experiences described herein.

Teaching IFRS Richard M.S. Wilson 2013-09-13 The increasing pace of global conformance towards the adoption of International Financial Reporting Standards (IFRS) highlights the need for accounting students as well as accounting practitioners to be conversant with IFRS. *Teaching IFRS* offers expert descriptions of, and insights into, the IFRS convergence process from a teaching and learning perspective. Hence this book is both timely and likely to have considerable impact in providing guidance for those who teach financial reporting around the world. The contents of the book come from authoritative sources and offer something distinctive to complement the existing textbooks which typically focus on the technical aspects of IFRS and their adoption. Drawing upon the experiences of those who have sought to introduce IFRS-related classroom innovations and the associated student outcomes achieved therefrom, the book offers suggestions about how to design and deliver courses dealing with IFRS and catalogues extensive listings of IFRS-related teaching resources to support those courses. This book was originally published as a special issue of *Accounting Education: An international journal*.

Quantitative Methods for Business Donald Waters 2008 *Quantitative Methods for Business* has been thoroughly revised and updated for this 4th edition, and continues to provide a simple and practical introduction to an area that students

can find difficult. The book takes a non-threatening approach to the subject, avoiding excessive mathematics and abstract theory. It shows how to apply quantitative ideas to the real problems faced by managers. The book includes numerous exercises and examples that help students understand the relevance of quantitative ideas to business. Assuming no previous knowledge, the text provides complete coverage for a first course in quantitative methods.

Challenges in advanced management accounting The Open University

Advances in Digital Science Tatiana Antipova 2021-03-14 This book gathers selected papers that were submitted to the 2021 International Conference on Advances in Digital Science (ICADS 2021) that aims to make available the discussion and the publication of papers on all aspects of single and multi-disciplinary research on Conference topics (<https://ics.events/icads-2021/>). ICADS 2021 was held on February 19–21, 2021. An important characteristic feature of Conference is the short publication time and world-wide distribution. Written by respected researchers, the book covers a range of innovative topics related to: Advances in Digital Agriculture & Food Technology, Advances in Digital Economics, Advances in Digital Education, Advances in Public Health Care, Hospitals & Rehabilitation, Advances in Digital Social Media, Advances in Digital Technology & Applied Sciences, Advances in E-Information Systems, and Advances in Public Administration. This book is useful for private and professional non-commercial research and classroom use (e.g. sharing the contribution by mail or in hard copy form with research colleagues for their professional non-commercial research and classroom use); for use in presentations or handouts for any level students, researchers, etc.; for the further development of authors' scientific career (e.g. by citing, and attaching contributions to job or grant application).

Business Innovation and Development in Emerging Economies Irwan Trinugroho 2019-05-22 Business Innovation driven by the advancement of technology has dramatically changed the business landscape over recent years, not only in advanced countries but also in emerging markets. It is expected that business innovation could help achieve economic inclusion, which has been a global initiative over the last decade, creating opportunities for all people to benefit from the economic development. These proceedings provide an outlet for discussing the importance of business innovation, especially in emerging countries in helping to reach inclusive economies. The papers cover the subject areas management, accounting, finance, economics and social sciences.

Corporate Financial Accounting and Reporting Tim Sutton 2004 Corporate Financial Accounting and Reporting is a comprehensive accounting textbook directed at those using financial reports. Its aim is to help current and future managers gain a thorough understanding of companies' published reports and is unique in the fact that it covers all three years of a traditional financial accounting course. The text is divided into 3 parts: the first covers the foundations of accounting, the second part considers the components of financial statements in more depth and the third part explores how investors analyse financial statements. Recognising the increasingly international nature of accounting, this book provides full coverage of international accounting standards with the European Union's Company Law Directives providing its legal framework Corporate Financial Accounting and Reporting is designed for international MBA programmes and specialist postgraduate programmes in international business/finance in Europe. It can also be used in international business programmes at the undergraduate level.

Integrated Science in Digital Age 2020 Tatiana Antipova 2020-05-26 This book presents the proceedings of the 2020 International Conference on Integrated Science in Digital Age, which was jointly supported by the Institute of Certified Specialists (Russia) and Springer, and was held on May 1–3, 2020. The conference

provided an international forum for researchers and practitioners to present and discuss the latest innovations, trends, results, experiences and concerns in the various areas of integrated science in the digital age. The main goal of the conference was to efficiently disseminate original findings in the natural and social sciences, covering topics such as blockchain & cryptocurrency; computer law & security; digital accounting & auditing; digital business & finance; digital economics; digital education; digital engineering; machine learning; smart cities in the digital age; health policy & management; and information management.

Construction Accounting and Financial Management Steven J. Peterson 2019-01-11 For courses in construction accounting. The market's most in-depth coverage of construction accounting and finance Construction Accounting and Financial Management covers all of the key accounting and financial management principles needed by construction managers to profitably manage the finances of construction companies, as well as how to adapt these principles for the construction industry. The text introduces construction financial management, details the framework for a construction accounting system, describes the management of costs, profits, and cash flows, and provides tools for making financial decisions. The 4th edition includes new sections on topics such as cost segregation, the design-build process, and pertinent provisions of The Tax Cuts and Jobs Act passed in December 2017.

Handbook of Research on Social Entrepreneurship and Solidarity Economics Saiz-Álvarez, José Manuel 2016-05-19 Education programs in social entrepreneurship helps to create and fill jobs devoted to developing the local economy, which has become a dual transfer strategy by which a virtuous circle occurs between a retrofitted educational system based on social entrepreneurship, and vocational students who are highly entrepreneurial. The Handbook of Research on Social Entrepreneurship and Solidarity Economics focuses on practical experience and theoretical models for popularizing the concept of social entrepreneurship as a critical element of economic growth. Emphasizing the ways in which social entrepreneurship benefits developing regions, small and medium enterprises, and low-income communities, this handbook of research is a pivotal reference source for professionals, academics, and graduate-level students in the fields of economics, business administration, sociology, education, politics, and international relations.

Financial Accounting and Reporting Barry Elliott 2006 This edition of 'Financial Accounting and Reporting' features chapters on foreign currency transactions and ethics for accountants. It addresses the theory and conceptual underpinnings of the topic in great depth.

Financial Accounting for Decision Makers Peter Atrill 2004 "This book is suitable for those studying an introductory course in financial accounting, who are seeking an understanding of basic principles and underlying concepts without detailed technical knowledge."--BOOK JACKET.
